

OVERVIEW

The Wavecrest® Power Conditioner protects electrical equipment in buildings from volatile power conditions caused by internal and external forces. Originally designed to prevent LED lights from flickering, it installs at the circuit breaker to protect any sensitive electronics.

PROTECT AGAINST

- Surge
- EMI Noise
- Over/Under Voltage
- Chatter
- EMP
- Lightning

SPECIFICATIONS

- Max Spike Protection: 120kA, 100kV
- Rated Spike Protection: 12,000kA
- EMI/RFI Filter: 120db
- Over/Under Voltage Protection
- Load Rating: 20A
- Current Limiting
- Voltage Rating: 120v-277v Single-Phase, 480v 3-Phase
- Voltage & Current Read-out Display
- Diagnostic LEDs

CERTIFICATIONS

- UL 1449 Listed
- RoHS Compliant

NOTES

- 1-year limited warranty
- Wavecrest® Powerline Conditioner should be installed by a qualified electrician.
- Wavecrest® Powerline Conditioner is designed for indoor use only.
- Wavecrest® Powerline Conditioner is not a substitute for proper grounding of electrical equipment.
